

Wellness Policy Assessment Tool

Form 357 Rev 12/15

This template provides information on wellness policy goals and practices within the LEA. Use this tool to track progress and gather ideas on ways to create a healthier school environment. A separate assessment should be completed for each school or at a minimum, each school level. The wellness policy and completed assessment must be available to the public.

LEA/District Name Northwood Local School

Reviewer Emilia Bires

School Name Northwood School

Date 08/31/2022

Select all grades: PK K 1 2 3 4 5 6 7 8 9 10 11 12

Yes No I. Public Involvement

We encourage the following to participate in the development, implementation, and evaluation of our wellness policy:

Administrators School Food Service Staff P.E. Teachers Parents
 School Board Members School Health Professionals Students Public

We have a designee in charge of compliance.

Name/Title: Emilia Bires/Safety Coordinator

We make our policy available to the public.

Please describe: School Website , Superintendent Parent Letter

We measure the implementation of our policy goals and communicate results to the public.

Please describe: School website, School Newsletter

Our district reviews the wellness policy at least annually.

Yes No II. Nutrition Education

Our district's written wellness policy includes measurable goals for nutrition education.

We offer standards based nutrition education in a variety of subjects (e.g. science, health, math, etc).

We offer nutrition education to students in: Elementary School Middle School High School

Yes No III. Nutrition Promotion

Our district's written wellness policy includes measurable goals for nutrition promotion.

We promote healthy eating and nutrition education with signage, use of creative menus, posters, bulletin boards, etc.

We have reviewed *Smarter Lunchroom* techniques and evaluated our ability to implement some of them.

We place fruits and vegetables where they are easy to access (e.g. near the cafeteria cashier or near the front of the line).

We ensure students have access to hand-washing facilities prior to meals.

We annually evaluate how to market and promote our school meal program(s).

We regularly share school meal nutrition, calorie, and sodium content information with students and families.

We offer taste testing or menu planning opportunities to our students.

We participate in Farm to School activities and/or have a school garden.

We only advertise and promote nutritious foods and beverages on school grounds (e.g. buildings, playing fields, etc).

We price nutritious foods and beverages lower than less nutritious foods and beverages.

We offer fruits or non-fried vegetables in: Vending Machines School Stores Snack Bars à La Carte

We have nutritional standards for foods/beverages served at school parties, celebrations, events, etc.

We provide teachers with samples of alternative reward options other than food or beverages.

We prohibit the use of food and beverages as a reward.

Yes No IV. Nutrition Guidelines (Cont. from page 1)

- Our district's written wellness policy addresses nutrition standards for USDA reimbursable meals.
- We operate the School Breakfast program: Before School In the Classroom Grab & Go
- We follow all nutrition regulations for the National School Lunch Program (NSLP).
- We operate an Afterschool Snack Program.
- We operate the Fresh Fruit and Vegetable Program.
- We have a Certified Food Handler as our Food Service Manager.
- We have adopted and implemented *Smart Snacks* nutrition standards for ALL items sold during school hours, including:
 as à La Carte Offerings in School Stores in Vending Machines as Fundraisers

Yes No V. Physical Activity

- Our district's written wellness policy includes measurable goals for physical activity.
- We provide physical education for elementary students on a weekly basis.
- We provide physical education for middle school during a term or semester.
- We require physical education classes for graduation (high schools only).
- We provide recess for elementary students on a daily basis.
- We provide opportunities for physical activity integrated throughout the day.
- We prohibit staff and teachers from keeping kids in from recess for punitive reasons.
- Teachers are allowed to offer physical activity as a reward for students.
- We offer before or after school physical activity: Competitive sports Non-competitive sports Other clubs

Yes No VI. Other School Based Wellness Activities

- Our district's written wellness policy includes measurable goals for other school-based activities that promote wellness.
- We provide training to staff on the importance of modeling healthy behaviors.
- We provide annual training to all staff on: Nutrition Physical Activity
- We have a staff wellness program.
- We have school district staff who are CPR certified (e.g. teachers, coaches, counselors, food service staff) .
- We actively promote walk or bike to school for students with Safe Routes to School or other related programs.
- We have a recycling /environmental stewardship program.
- We have a recognition /reward program for students who exhibit healthy behaviors.
- We have community partnerships which support programs, projects, events, or activities.

VII. Progress Report: Indicate any additional wellness practices and/or future goals and describe progress made in attaining the goals of the local wellness policy

We offer Wellness Wednesday for our Staff (Healthy Snacks one every other month)
We provide challenges for our Staff
We provide a newsletter to our Staff
We are always working on special Salads to offer to our Staff members to Purchase for Lunch

VIII. Contact Information:

8510 - WELLNESS

As required by law, the Board of Education establishes the following wellness policy for the Northwood Local School District as a part of a comprehensive wellness initiative.

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and his/her ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students' healthy behaviors and habits with regard to eating and exercise. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition habits:

A. With regard to nutrition education, the District shall:

1. Nutrition education shall be included in the sequential, comprehensive Health curriculum in accordance with the curriculum standards and benchmarks established by the State.
2. Nutrition education shall be integrated into other subject areas of the curriculum, when appropriate, to complement, but not replace, the standards and benchmarks for health education.

B. With regard to physical activity, the District shall:

1. **Physical Education**

The sequential, comprehensive physical education curriculum shall provide students with opportunities to learn, practice, and be assessed on developmentally appropriate knowledge, attitudes, and skills necessary to engage in lifelong, health-enhancing physical activity.

2. Physical Activity

In addition to planned physical education, the school shall provide age-appropriate physical activities (e.g., recess during the school day, intramurals and clubs before and after school, and interscholastic sports) that meet the needs of all students, including males, females, students with disabilities, and students with special health care needs.

C. With regard to other school-based activities:

Free drinking water shall be available to students during designated meal times and may be available throughout the school day.

1. The school shall provide attractive, clean environments in which the students eat.
 2. The schools may use environmentally friendly practices, such as the use of locally grown foods and non-disposable tableware and dishes.
 3. Schools in our system utilize electronic identification and payment systems, therefore, eliminating any stigma or identification of students eligible to receive free and/or reduced meals.
- D. With regard to nutrition promotion, any foods and beverages marketed or promoted to students on the school campus, during the school day, will meet or exceed the USDA Smart Snacks in School nutrition standards.

Additionally, the District shall:

1. encourage students to increase their consumption of healthful foods during the school day;
2. create an environment that reinforces the development of healthy eating habits, including offering the following healthy foods that comply with the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards:
 - a. whole grain products – half of all grains need to be whole grain-rich upon initial implementation and all grains must be whole grain-rich within two (2) years of implementation;
 - b. fluid milk that is fat-free (unflavored and flavored) and low-fat (unflavored).

Furthermore, with the objectives of enhancing student health and well being, and reducing childhood obesity, the following guidelines are established:

- A. In accordance with Policy 8500, entitled Food Service, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages, including but not limited to the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, as well as to the fiscal management of the program.
- B. As set forth in Policy 8531, entitled Free and Reduced Price Meals, the guidelines for reimbursable school meals are not less restrictive than the guidelines issued by the U.S. Department of Agriculture (USDA).

The sale of foods of minimal nutritional value in the food service area during the lunch period is prohibited.
- C. The sale of foods and beverages to students that do not meet the USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards to be consumed on the school campus during the school day is prohibited.

- D. All food items and beverages available for sale to students for consumption on the school campus (any area of property under the jurisdiction of the school that is accessible to students during the school day) between midnight and thirty (30) minutes after the close of the regular school day shall comply with the current USDA Dietary Guidelines for Americans and the USDA Smart Snacks in School nutrition standards, including, but not limited to, competitive foods that are available to students a la carte or as entrees in the dining area (except entree items that were offered on the National School Lunch Program (NSLP) or School Breakfast Program (SBP) menu on the day of and the day after they are offered on the NSLP or SBP menu), as well as food items and beverages from vending machines, from school stores, or as fund-raisers, including those operated by student clubs and organizations, parent groups, or boosters clubs.
- E. All foods offered on the school campus during the school day shall comply with the current USDA Dietary Guidelines for Americans, including competitive foods that are available to students a la carte in the dining area, as classroom snacks, or from vending machines.
- F. All food and beverages that are provided, other than through sale, on the school campus during the school day (which may include for classroom parties and at holiday celebrations) shall comply with the food and beverage standards approved by the Principal.
- G. The food service program will provide all students affordable access to the varied and nutritious foods they need to be healthy and to learn well regardless of unpaid meal balances and without stigma.
- H. The school food service program may involve students, parents, staff, and school officials in the selection of competitive food items to be sold in the schools.

The Board designates the Superintendent as the individual charged with operational responsibility for measuring and evaluating the District's implementation and progress under this policy. The Superintendent shall develop administrative guidelines necessary to implement this policy.

The Superintendent shall appoint a District-wide Wellness Committee that includes parents, students, representatives of the school food authority, educational staff (including health and physical education teachers), mental health and social services staff, school health professionals, members of the public, and school administrators to oversee development, implementation, evaluation, and periodic update of this policy. The Wellness Committee shall be an ad hoc committee with members recruited and appointed annually.

The Wellness Committee shall be responsible for:

- A. assessment of the current school environment;
- B. review of the District's Wellness policy;
- C. presentation of the Wellness policy to the Board for approval;
- D. measurement of the implementation of the policy; and
- E. recommendation for the revision of the policy, is necessary.

Before the end of each school year, the Wellness Committee shall recommend to the Superintendent any revisions to the policy it deems necessary and/or appropriate. In its review, the Wellness Committee shall consider evidence-based strategies in determining its recommendations.

The Superintendent shall report annually to the Board on the Wellness Committee's progress and on its evaluation of the policy's implementation and areas for improvement, including status of compliance by individual schools and progress made in attaining the policy's goals.

The Superintendent is also responsible for informing the public, including parents, students and community members, on the content and implementation of this policy. In order to inform the public, the Superintendent shall post the policy on the District's website, including the Wellness Committee's assessment of the policy's implementation.

The District shall assess the Wellness Policy at least once every three years on the extent to which schools in the District are in compliance with the District policy, the extent to which the District policy compares to model wellness policies, and the progress made in attaining the goals of the District Wellness Policy. The assessment shall be made available to the public on the School District's web site.
